

CENTRAL FLORIDA MARLINS SWIM TEAM

Locker Room Monitoring Plan

Marlin Swim Clubs monitoring of locker rooms will involve keeping the main entrance doors closed so that adequate privacy is retained and allows for occasional sweeps by the staff.

Parents/legal guardians are discouraged from entering the locker rooms during times when they are in use by our athletes. There are 2 bathrooms available for adult usage. Entry into locker rooms by coaches during use by athletes is restricted to monitoring sweeps and emergencies.

Athletes have 15 minutes after practice to shower/change after practice. No loitering or horseplay/physical contact between athletes is allowed.

Any use of recording-capable devices (phones, cameras, etc.) in locker rooms is strictly prohibited by Marlin Swim Club and by the facility they use.

Misconduct and/or violation of Marlin Swim Club locker room policy is to be reported to a coach and/or the head coach immediately. Meetings with violators and parents will be arranged as necessary to address behavior issues and consequences such as suspension from the team will be implemented as needed.
